Reasons for Allowance

1. Claims 1-13, 15-22 and 25-29 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fails to teach the claims invention of defining the document class fuzzy set through a normalized transformation of a histogram related to each feature in the text object and relating such set to a knowledge base of class fuzzy sets to determine a qualifying decision rule that establishes a related label.

The closest prior art (Shetty et al, U.S. Patent Pub. 2003/0046253) teaches a fuzzy logic approach for classifying data into clusters where the clusters have not been predetermined. Shetty does not teach categorization based on predetermined rules related to labels. Applicant's invention facilitates categorization through predefined fuzzy rule sets using a knowledge base.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
